

## WPC Market in Southeast Asia 2011

### **Southeast Asian WPC landscape with one click!**

The market study **WPC Market in Southeast Asia 2011** focuses the first time on this region. The study presents up-to-date information and trends about the WPC market in a well-arranged form. County reports from

Singapore, Malaysia, Philippines, Thailand, Indonesia and Vietnam are offered for 2011 with a forecast for 2015. The study also provides an overview of the companies that produce, import and export WPC, as well as the polymer and fiber shares of the used application fields, which will

improve the picture of the market.
